

## **AQUILA PURCHASING POLICY**

For Aquila Hotels & Resorts Company, sustainability means ensuring environmental, economic and social well-being for today and for the future. It means meeting the needs of the people and society, without compromising the ability of future generations to meet their needs acting in the long-term interests of the many people and not just the few.

Our most important decisions and criteria are based on quality, price, reliability, supply stability, safety and sustainability.

Therefore:

- ✔ We select fairly by comparing offers from various suppliers.
- ✔ We ensure that our purchasing personnel do not permit personal interest to influence the choice of vendors.
- ✔ We create opportunities for new collaborators by continually reviewing our regular vendors.
- ✔ We purchase locally whenever this is possible.
- ✔ We prefer goods with less packaging materials, emphasizing the possibility to recycle and reuse.
- ✔ We purchase or replace old equipment with new efficient one.
- ✔ We purchase cleaning materials and chemicals with the minimum impact in the environment and health.
